INDUSTRIAL PROBLEMS FARM PROBLEMS To The Teacher.--Problems relating to the industries of a state afford practice in the application of arithmetical principles already studied, and, if based upon recent statistics, are of much value in giving information. Pupils should be encouraged to make problems illustrating the industries of the locality in which the school is situated. This table shows the number of pounds of plant food, such as nitrogen, phosphoric acid, and potash, in one ton of the article named! All other constituents necessary to plant food can be obtained from the soil, if the water supply is sufficient arid the heat conditions are proper. The composition of farm produce varies greatly, so that the same kind of crop may be almost twice as some cases as it is in other intended to show the average 1....
